

Comparison Document

Endpoint Central Cloud

VS

Qualys

***Note:** With more than 16 years of experience in delivering endpoint management solutions, we are redefining Desktop Central as Endpoint Central as we evolve and grow to meet the market standards and customer needs. Read our rebranding announcement [here](#).*

Endpoint Central Cloud Vs Qualys

This document provides a feature-wise high-level comparison report between **ManageEngine Endpoint Central Cloud** and **Qualys**.

- The comparison document is strictly arrived based on the details exposed in the competitor's website.
- The comparison document details are as dated as on **19th of May, 2022**.

Uniqueness of ManageEngine Endpoint Central

- ManageEngine Endpoint Central is a unified endpoint management and security solution that supports the entire endpoint management life cycle for Windows, Mac, Linux, iOS, Android, tvOS and Chrome OS, whereas **Qualys is a collection of cloud apps with limited endpoint management features**.
- **Endpoint Central provides lets you distribute, deploy and meter software along with license management**, something that Qualys doesn't offer.
- **Qualys doesn't support troubleshooting end-user issues via remote control** whereas Endpoint Central does.
- **Endpoint Central supports patching over 850 applications** - including Windows, Mac, Linux, and third party apps to keep your network safe and secure.
- Endpoint Central has over **8000 applications** in its pre-defined software templates which users can deploy any time, at a moment's notice.
- Endpoint Central has over **100 ready-made custom script templates**, ready to be deployed any time for tasks such as cleaning up the recycle bin, disabling control panel, etc.
- Endpoint Central supports **security add-ons** like Vulnerability Manager Plus,

Browser Security Plus, Application Control Plus, and Device Control Plus for overall endpoint protection.

- Endpoint Central bagged CDM Infosec Award 2020 under the 'Next Gen Unified Endpoint Management (UEM) solution' category
- Endpoint Central is a 2021 Gartner Peer Insights Customers' Choice for UEM and as of today, has an overall customer rating of **4.5 out of 5** based on 120 end-user reviews.
- ManageEngine is honored to be recognized in the ManageEngine recognized in 2021 Midmarket Context: Magic Quadrant for Unified Endpoint Management (UEM) as a Notable Vendor.

Note: The awards and recognitions were presented when the product was named Desktop Central. Desktop Central is now Endpoint Central.

- Endpoint Central also has the ability to integrate with 6 different help desk solutions namely Jira, Zendesk, Servicenow, ServiceDesk Plus, Freshworks, and Spiceworks, through which you can use all your endpoint management features right from your help desk console, with a single sign-on facility.
